While I don't have the time to list out the number of reasons I believe the settlement with Mircosoft is not as complete as I think it should be, I believe, based on the information I have read, including many of the suggested readings for the case, that the current settlement with Microsoft does not realy punnish them. Please reconsider the settlement, and strengthen the final judgement.

My basic complaint: I don't think the current judgement is in the best interest of the overall public.

Thank you for your time.
